About Me

I graduated in 2024 from the Faculty of Law, Minya University, with a Good grade. During my studies, I assisted my classmates by explaining complex legal materials to help them better understand the subjects. I focused particularly on the challenging courses, which contributed to their improved grades. Since graduating, I have continued to develop my skills while preparing for a Master's degree. I've also drafted three supply contracts valued at one million EGP each. Additionally, I'm currently working on developing a legal application powered by artificial intelligence, aimed at transforming the future of the legal profession and enhancing the delivery of legal services.

Skills and Services

- Legal Research
- Initial Legal Consultations
- Drafting Lawsuits and Legal Petitions
- Explaining Legal Materials
- Case Analysis

Courses and Qualifications

Completed a 244-hour Legal Diploma at MPL Academy, covering:

- Contract drafting
- Civil and criminal lawsuits
- Preparing legal memoranda and petitions

Achievements

- Drafted three supply contracts, each worth one million EGP.
- Explained legal materials to classmates, helping them succeed in difficult subjects.
- Developing a legal application using artificial intelligence aimed at transforming the future of the legal profession.
